

My family and I listen to K-Love every single day. We would hate to not have it in our area. We enjoy the positive music and news we hear each day. I believe it is important to our community because it is so wholesome and positive. In a world which has so much negative in it, we appreciate the relief it provides. I believe K-Love helps many hurting people all across this nation. Not just any station can do that. They truly care about their listeners. I support K-Love and would not want a Low Power FM station to take their spot. Thank you Julie Craig
